SUMMARY

Motivated MERN Stack Developer with hands-on experience in building web applications using MongoDB, Express.js, React, and Node.js. Passionate about creating user-friendly and responsive websites. Looking for an opportunity to apply my skills and grow in a dynamic environment. Excited to work on real-world projects and contribute to a team.

WORK EXPERIENCE

College Website For Client

July 2024

- Developed a college website for a client using the MERN stack, integrating MySQL, Express.js, Node.js, and React, with an admin panel for easy content management.
- Implemented Tailwind CSS for responsive design, utilized Google APIs, and designed custom banners using Canva. Added Nodemailer for the contact form and authentication features for admin access.
- Successfully delivered the project on time, meeting all client requirements and ensuring a secure, userfriendly experience.

Portfolio Website For Graphic Designer

Feb 2024

- Built a portfolio website for a graphic designer using the MERN stack, featuring MySQL, Express.js, React, and Node.js, with an admin panel for easy updates.
- Integrated Tailwind CSS for a modern, responsive design and used Nodemailer for a functional contact form.
- Delivered a visually appealing and user-friendly website that effectively showcases the designer's work and facilitates client communication.

PERSONAL PROJECTS

March 2024

Tomato Delivery

- Developed a comprehensive MERN stack project featuring user authentication, an admin panel, and integration with MongoDB for backend support.
- Implemented a responsive frontend with dark and light themes using React and Tailwind CSS, enhancing user experience and accessibility.
- Integrated Stripe payment system for secure transactions and ensured seamless functionality across different user roles, including admin management.

Zara Therapy Jan 2024

- Created a fully responsive website for Zara Therapy Clinic using HTML, CSS, and JavaScript, focusing on a user-friendly design to showcase services and attract new clients.
- Developed key features such as a dynamic homepage, detailed service categories, therapist profiles, and a contact page with GeoLocation API, enhancing user interaction and accessibility.
- Enhanced the website's visual appeal and usability by integrating multimedia elements, including high-quality images, video testimonials, and an intuitive navigation system.

EDUCATION

Bachelor in Computer Science (Dawood University)
Web Development (Aptech)

Sep 2023 - Oct 2027

Sep 2023 - Oct 2024
